Repeater Listing

July 2002

Listed by Region / City

The WISCONSIN ASSOCIATION OF REPEATERS is an organization of trustees and representatives of repeaters, state-wide, whose goal is mutual cooperation on the VHF and UHF spectrum, in the voluntary spirit of amateur radio.

GENERAL FREQUENCY COORDINATION POLICIES

- We attempt to place no two repeaters on the same pair closer than 90 miles on 144MHz, 70 miles on 222MHz, and 60 miles on 440MHz and up.
- We attempt to place no repeater on a 15kHz splinter pair closer than 40 miles to any adjacent 30kHz standard spacing repeater.
- We not only assist proposed repeaters in finding a frequency where possible, but we actively attempt to protect coordinated repeaters' frequencies from interference whenever possible.
- W.A.R. has suggested band plans for most of the Amateur spectrum, a sub-audible tone plan for the State of Wisconsin, and all necessary information for coordination of new or modifications to existing repeaters.
